

Internal View of the HealthPro Plus

The HealthPro Plus Filters:

- All types of airborne allergens
- All types of dust
- All types of soot
(including diesel and candle soot)
- All types of bacteria
- All types of viruses
- All types of VOCs
(Volatile Organic Compounds)
- All types of odors
(pet, cooking, tobacco, paint, etc.)
- Most gaseous chemicals

Total User Control & Convenience

- 1. Intelligent Filter Life Monitor**
Tracks life of each individual filter to maximize performance and yield. Calculates remaining filter life down to the hour, based on actual usage.
- 2. Indicator LEDs**
Alerts you when it's time to replace filters.

Six Fan Speed Settings

Allows you to select the most suitable performance sound ratio. The corresponding air flow is displayed in cfm or m³/h.

Programmable Timer

The automatic timer allows the IQAir system to be programmed to turn on and off at specified times and days.

HEALTHPRO PLUS

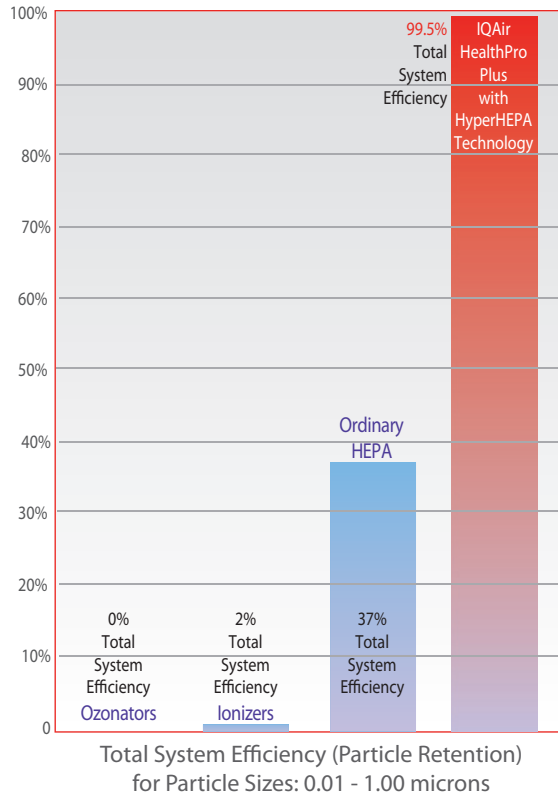

THE MOST
ADVANCED AIR PURIFIER
IN THE WORLD

Top 7 Reasons Everyone Loves IQAir

1. HyperHEPA™ Filters— The Most Powerful Air Filtration Available

Most air purifiers can only filter down to 0.3 microns in size – But 90% of all particles in the air are smaller than 0.3 microns! IQAir's patented HyperHEPA™ filtration filters down to 0.003 microns with a guaranteed minimum efficiency of 99.5%. This means that HyperHEPA™ can remove up to 100 times more allergens than conventional air cleaners.

2. Rated #1 by Top Reviewers

Since the HealthPro Plus was launched, it has received more #1 product reviews than any other air purifier on the market.

3. #1 for Allergies & Asthma

The IQAir has clinically been proven effective for allergic asthma. IQAir passed the most comprehensive double-blind, placebo controlled clinical trial. The HealthPro Plus is the top recommended air purifier by medical and healthcare professionals.

4. Trusted by Hospitals Worldwide

IQAir is the #1 air purifier used by hospitals worldwide. IQAir was selected by the Hong Kong Hospital Authority as the only room air cleaner powerful enough to be used in the fight against SARS. Now you can have the same medical-grade air purifier for your home!

5. Partners with the American Lung Association

IQAir was selected by the American Lung Association as their exclusive partner for indoor air quality. Every IQAir product comes with educational materials to help you improve your indoor air.

6. Advanced Gas and Odor Control

Protect yourself from household chemicals. Common household products like cleaners and detergents can emit dangerous fumes. Some air purifiers filter particles, but not chemicals or gases. IQAir offers the best gas filtration technology to remove the widest range of airborne chemicals.

7. 100% Ozone-Free Technology

All IQAir air purifiers are certified to produce absolutely no ozone. Ozone is a lung irritant that is emitted from ionic air cleaners. Even small amounts of ozone are undesirable for allergy and asthma sufferers.
